InDesign CC Advanced

Course #: AID-102 **Duration:** 1 day

Prerequisites

Adobe InDesign CC Introduction

Details

Adobe InDesign allows you to create complex, interactive documents that can be accessed across a range of devices. This course covers the "Print & Digital Media Publication Using Adobe InDesign CC" objectives to help students prepare for the Adobe Certified Associate (ACA) exam. This course is also designed to cover the Adobe Certified Expert (ACE) exam objectives.

In this course, you learn to become more proficient with text editing, document setup, and using color. You learn how to set up alternate layouts and templates, use object libraries and snippets, and create tints, gradient swatches, and vector paths. Finally, you learn to prepare documents for commercial printing or electronic distribution, how to manage long documents, use advanced color and print settings, add interactive elements to documents, prepare documents for electronic distribution, and work with XML.

Software Needed

- Adobe InDesign CC

Outline

InDesign CC Advanced
